Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 24 September 2003.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 36-42 and 43-53 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With respect to claim 43, there is no recited structure associated with the drive assembly.
Note claims 44 and 1.

With respect to claim 36, there is no antecedent basis for "said dispenser".

With respect to claim 42, the preamble is not drawn to a method claim, as the dependency of the claim suggests.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 26, 28, 29, 31, 36, 37, 39, and 40 are rejected under 35 U.S.C. 102(b) as being anticipated by Lane #2,648,587. Lane discloses a cabinet structure 13 comprised of compartments 10, and three vertical aligned sliding doors 32 associated with respective compartments.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 20 and 21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Webster #1,628,865 in view of Lane as advanced above. Webster discloses a cabinet structure 10 comprised of compartment 12, and a sliding door 23 that is positioned beneath the compartment when access is provided thereto. Webster fails to disclose at least two doors and compartments.

Lane, as advanced above, teaches the utility of three vertically aligned sliding doors for providing access to three compartments. Therefore, to one of ordinary skill in the art, it would have been obvious, as a matter of engineering design choice, to provide the structure of Webster with at least two door and compartment arrangements, as taught by Lane, this being no more than a duplication of parts, not expected to produce any new and unexpected results.

Allowable Subject Matter

Claims 1-19 and 32-35 are allowed.

Claims 22, 23, 24, 25, 27, 30, 38, 41, 42, and 44, 45, 46, 47, and 48-53, are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Ammon et al #5,924,780, Schnarr #3,703,325, and Ludwig et al #4,925,258 are cited to teach door assemblies for cabinet structures.
